

IB INTERNATIONAL

Use on Suction and Discharge Pumping Systems

Connect Poly to Steel quick and easy

High Resistance To:

Corrosion

Temperatures

Wide range of chemicals

The Polycrimp System allows the connection of HDPE pipes to quick connecting ball couplings, victaulic couplings, and threaded adapters manufactured in galvanised steel and stainless steel. The coupling is directly welded to SDR 26/17/11 polyethylene pipes from 2" to 12" size to both "ISO" and "ASTM" standards

Pumping • Industrial • Mining • Irrigation
